We believe this policy should be a working document that is fit for purpose, represents the school ethos, enables consistency and quality across the school.

Future Education is an Independent Special School in Norwich for boys and girls aged 13-16 and offers a full-time education for students with complex Social Emotional and Mental Health needs.

The school is registered to admit up to 44 students.

Students are referred by the Local Authority (mainly Norfolk and Suffolk based) and will have an Education Health & Care Plan (EHCP). Admissions are agreed in partnership with students, parents/carers and the Local Authority.

We as a school community have a commitment to promote equality and we will treat each individual fairly.

Aims of the policy

- To establish and maintain a consistent and open admissions policy
- To ensure that Future Education admits only students it has the capacity and ability to fully support
- To have a thorough and effective 'transition in' framework to support students moving into the school

Current student characteristics and referral trends

Typically, students admitted to the school have missed significant parts of their education having been excluded from mainstream or other specialist/alternative education provision, and are substantially behind their peers in terms of development and achievement.

The majority of student referrals will present one or more of the following characteristics/needs:

- ✦ Looked After Children
- ✦ Vulnerable, actual or potential offenders
- ✦ Historic trauma events
- ✦ Other issues such as Foetal Alcohol Syndrome
- ✦ Need for therapeutic interventions
- ✦ Limited understanding of and/or severely restricted expressive or receptive language
- ✦ Non or delayed development of oral/aural skills
- ✦ Social communication needs
- ✦ Consistently high levels of severe and challenging behaviour or extreme obsessional behaviour

- ✦ Unpredictable regular (daily) or intense episodes of violent/aggressive behaviour towards self/peers/adults and/or property.
- ✦ Defiance and rejection of adult authority
- ✦ Absconding which could lead to harm.
- ✦ Sexualised behaviour within the context of the pupil's learning difficulties and developmental profile.
- ✦ Rapidly fluctuating moods of depression, anxiety or distress, exhibits self-harm or self-injury.
- ✦ separation anxiety, finding it difficult to be apart from family or away from the familiar routines of home
- ✦ Co-morbid anxiety based mental health difficulties
- ✦ Significant sensory processing needs which is a consistent obstacle to learning
- ✦ Moderate to severe learning difficulties, including neuro-developmental disorders such as global developmental delay requiring a highly differentiated curriculum and/or high levels of teaching support on a 1:1 basis.

Naming a School in an EHCP

The Local Authority, through each assigned EHCP Co-ordinator, hold responsibility for meeting a student's educational needs and will refer students to the school through the SENPAG panel process as they deem appropriate. The Local Authority will seek to place a child or young person with an EHCP where he/she will be most fully included and where he/she will have the best chance of being healthy, safe, enjoying their education to learn the skills to access employment and make a positive contribution to society.

A special school placement may also be considered following an Annual Review of an EHCP. Changes in the special educational needs and provision requirements for the child or young person may indicate the appropriateness of a special school placement. In addition, parent/carers are entitled to request for placement in any of the approved registered special provision available approved by the Local Authority. When considering such representations the LA will establish that the provision is suitable for the age, ability, aptitude or SEN of the child or young person and that the attendance of the child/young person would not be incompatible with the efficient education of others, or the efficient use of resources.

When Local Authorities make certain decisions about the education and/or training of a child or young person with SEN, there is a right of appeal to an independent Tribunal – The Special Educational Needs and Disability Tribunal. More information on this can be found here: <https://www.ipsea.org.uk/what-you-need-to-know/sendtribunal#top>

Parent/Carer request for a place at Future Education

Referrals for special school placements are usually received from EHCP Coordinators, after parent/carers have made a request for such a placement. The placement will be agreed, provided that:

- the school is suitable for the child or young person's age, ability and aptitude and the special educational needs set out in Section B of an EHCP
- any representations made by the governing body have been properly considered
- A funded place is available within the school or can be made available

If the school determines that admitting the child would be incompatible with the provision of efficient education, it will, within 15 days of receipt of the local authority's notice, notify the local authority in writing that it does not agree that the school should be named in the student's statement. Such notice must set out all the facts and matters the school relies upon in support of its decision.

Admission Procedure

Admissions from Norfolk County Council will follow the Local Authority Admissions procedure in accordance with the following agreement: Residential Care and/or Education Services & Day Education Services Rolling Select List Children's Services NCCT40112.

Referrals from other Local Authorities will follow localised procedures as outlined in the procedure below.

Initial information: Upon receiving a referral, the Local Authority will provide the relevant information relating to the pupil in order for the Headteacher to come to an initial understanding of need. This may include Risk Assessments, EHCPs, Academic Levels, Attendance information etc. and is subject to data protection procedures. If the Headteacher feels that insufficient information is provided he must liaise with the Local Authority in order to ensure that a full and informed decision can be made.

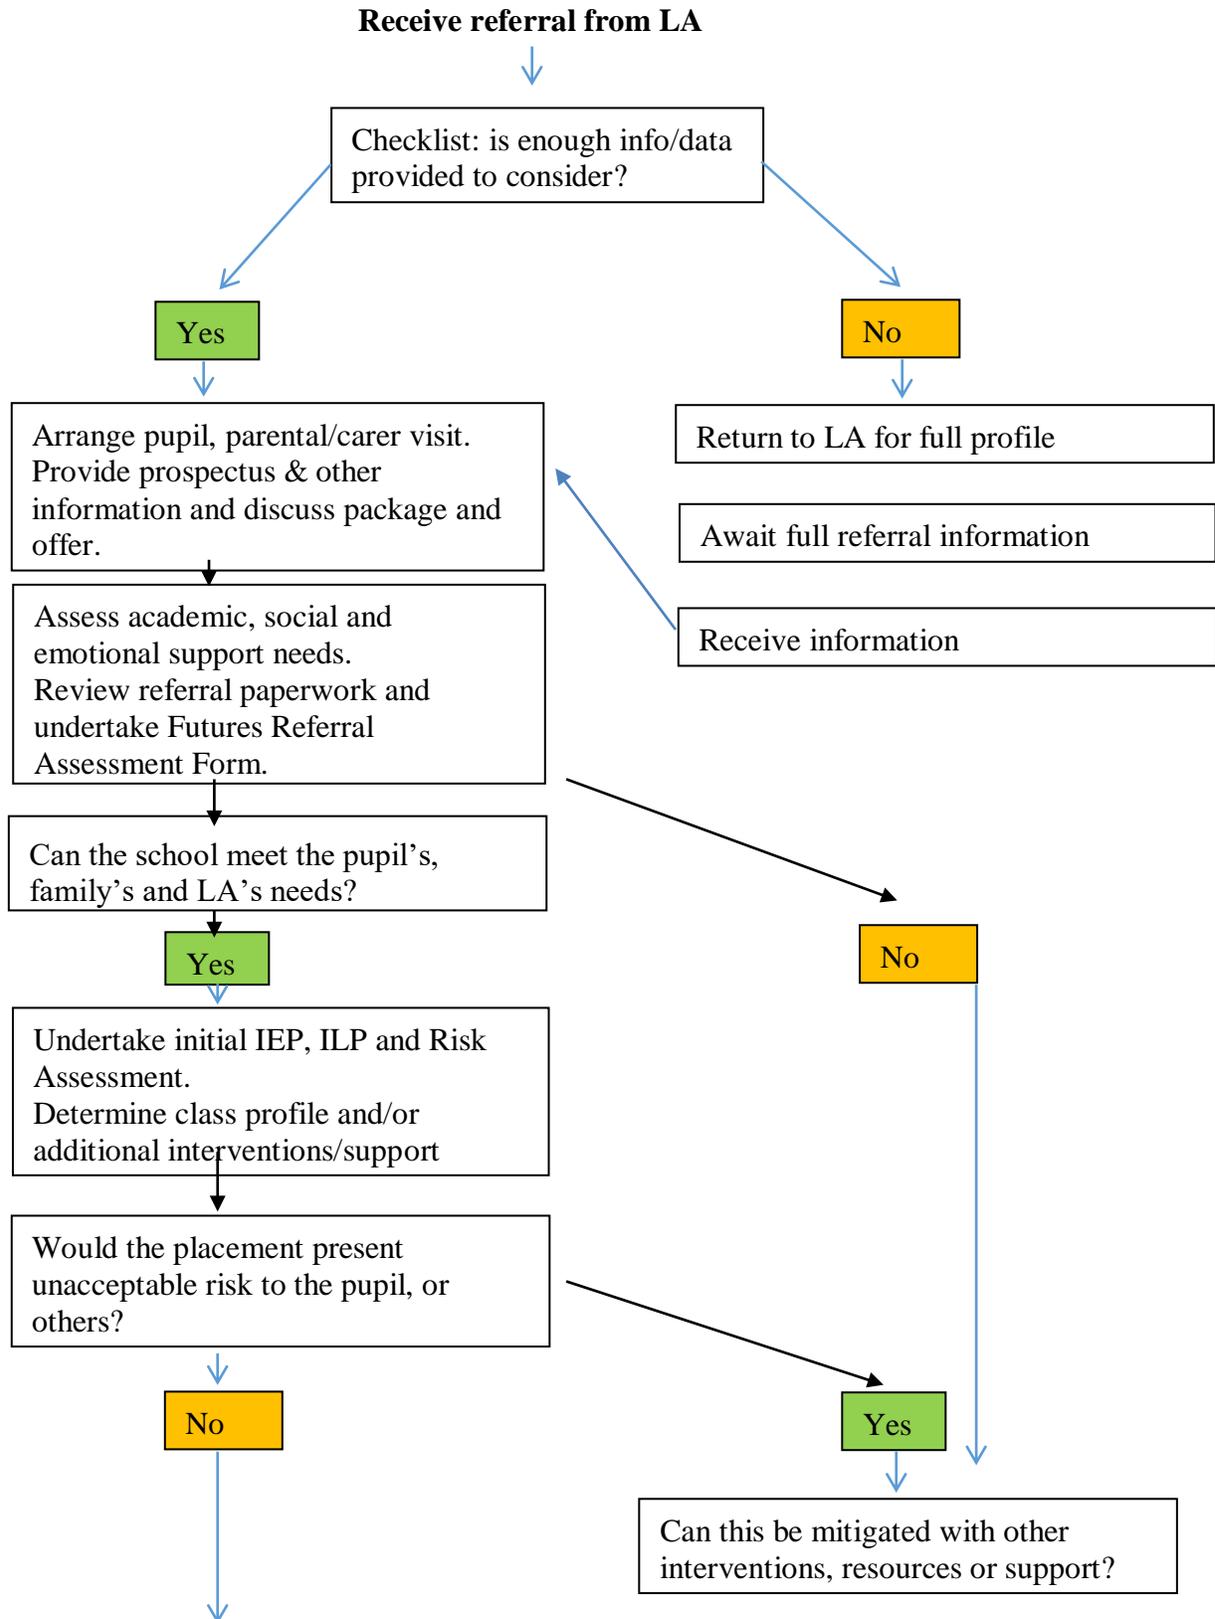

Parent/Carer meeting: If the Headteacher determined that the school may be in a position to accept the referral he will liaise with Local Authority Officer to that effect before inviting the pupil and parents/carers to meet at the school to discuss the possible placement. In some circumstances this may require a home visit.

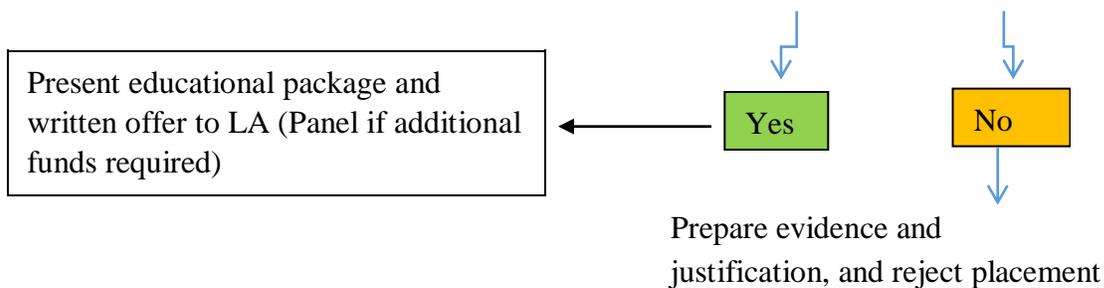

The Headteacher will provide the pupil and parents/carers with all the relevant information and documentation relating to the school and will discuss how the school could meet the pupils' needs. The Headteacher will also raise any difficulties that the school may have in meeting pupil needs and may raise the suitability of the placement with parents/carers at this stage.

Only when all parties agree to the admission will the Local Authority be informed of the school's acceptance of the placement. Subsequently the pupil will be added to the Admissions Register, a start date identified and the relevant documentation completed with parents/carers.

Consideration will be given to the school's capacity and balance of needs within the respective year groups. Consideration will also be given to reasonable adjustments to ensure that the school can meet the needs of prospective pupils wherever possible.
